

Pull Tab Dispensers

www.technikmfg.com • 800-795-8251 • technik@technikmfg.com

Pull-tab dispensers are the ideal solution for operators who want to maximize their revenue while minimizing hands-on operation. When choosing a dispenser, operators look for the most reliable, durable dispensers available -- and Technik fits the bill.

Technik Mfg., Inc. is the premier builder of pull-tab dispensers. Our team of experienced engineers has designed a positive belt feed system that reliably dispenses even warped or damaged tickets. Our technicians test each dispensing mechanism prior to production and retest them prior to shipping. We take these extra steps to provide you with the most reliable ticket dispensing options on the market.

Master 2

Packs a lot of features into one square foot of floor space.

960 ticket capacity in two front loading columns, for ease of use. Cabinet available in black, yellow, blue and red with color coordinated labels.

Master 3

Dispense a wide variety of 3 and 5 window tickets.

1,440 ticket capacity in two front loading columns, for ease of use. Cabinet available in black, yellow, blue and red with color coordinated labels.

Technik

The name you can count on!

- Reliable machines engineered for trouble-free operation.
- Cutting-edge technology keeps generating revenue with minimal effort.
- Attention getting designs that attract more players.
- High capacity for more variety and fewer refills.
- Built-in durability resists damage and deters vandalism.

Grand Master

Attention getting casino style design with an 8,000 ticket capacity.

Eight front loading columns hold several games for increased variety and player appeal in just four square feet of floor space.

Master 4

Your "automatic salesperson" for added revenue.

Holds 3,200 tickets in four back loading columns and takes up less than four square feet of floor space. It is our top seller.

"Success through customer satisfaction and continuous improvement"

If your operation has experienced the problems associated with selling pull-tab or sweepstakes tickets over the counter, or if you've been frustrated with machines that jam or break down, it's time to make a change to Technik Mfg., Inc. dispensers.

Technik dispensers offer the following features and advantages:

Standard Features

- Available in 2, 3, 4 and 8 column configurations.
- Adjustable for 3 and 5 window tickets.
- Exclusive Technik belt-feed delivery system provides trouble-free operation.
- Convenient adjustment for ticket thickness.
- Flexible settings allow each column to be priced separately.
- Resettable and non-resettable accounting function for reliable bookkeeping.
- Standard LCD readout simplifies reporting.
- Reliable bill acceptor recognizes \$1, \$5, \$10 and \$20 bills.
- Electronic control board self-tests every time machine is turned on and provides error code to identify problems.
- High-security polycarbonate display windows and heavy gauge powder coated steel cabinets with locks.

Optional Features

- Printer port and printer for hard copies of all accounting features.
- Internal modem for communicating sales and service information.
- Audible alarm - impact, tilt and door sensors.
- Door-open kill switch for complete safety.
- High-security locks.
- Custom graphics.

Warranty & Service Agreement

- Toll-free number for telephone service with extended hours. Because we engineer and build our own dispensing mechanisms, we can help you solve most problems quickly over the phone. This service keeps you up and running to reduce or eliminate the need for on-site service visits.
- One-year parts warranty.
- We maintain a solid partnership with customers to supply product enhancements, service and upgrades (both hardware and software) at very reasonable costs and fast turn-around time.
